

Conservancy Kids

We bring the Sonoran Desert to you!

Welcome to Conservancy Kids!

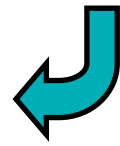

Become a junior scientist, exploring the natural world, asking questions, and making discoveries. Join us for an adventure that will take you outdoors, around the house, and into the incredible Sonoran Desert. Welcome to Conservancy Kids! We're excited to see you!

Wonderful Watersheds

Today, with the help of our partner Arizona Project WET, we are going to learn about watersheds. Check out the videos below to learn more about what a watershed is and what it means to live in one! Learn more about water with AZ Project WET [here](#) at their Arizona Water Festival Virtual Event!

Let's be a scientist!

A watershed is a land area that drains to the low points, where the low points are things like rivers and lakes. We all live in a watershed, but how does what we do in our cities actually affect that watershed? Let's make our own watershed model and explore how we can be responsible watershed managers!

Nicole Kallman, Education Manager

Nicole loves science and exploration. In college, she studied physics and biology. Now, she shares her excitement about science with others, encouraging everyone to follow in the footsteps of Miss Frizzle: "take chances, make mistakes, and get messy!"
